## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8, drawn to a method for determining IL-10 promoter alleles specific to an individual human and a method of predicting a human immunoresponse to a disease using an IL-10 promoter genotype.

Group II, claim(s) 9, drawn to a kit comprising reagents for identifying a SNP in IL-10 promoter genotype with instructions.

Group III, claim(s) 10-11, drawn to a diagnostic for disease comprising an IL-10 promoter region having a SNP.

2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons. The prior art teaches mapping the human IL-10 gene and characterizing the 5' flanking sequence. Eskdale teaches that 3-4 KB upstream of the transcription initiation site, and the identification of two new point mutations in the promoter region (abstract). Thus, Eskdale teaches a method for determining IL-10 promoter alleles by genotyping DNA encoding IL-10 for SNPs. Thus, there is no special technical feature over the art.

3. Further, the kit of Claim 9 does not require the technical feature of IL-10 promoter alleles. Rather Claim 9 is merely directed to a kit comprising reagents which may identify a polymorphism. These reagents encompass labels, buffers, gels, for example.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Jeanine Goldberg whose telephone number is (571) 272-0743. The examiner can normally be reached Monday-Friday from 7:00 a.m. to 4:00 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Jones, can be reached on (571) 272- 0745.
